

PSimPy - Predictive and probabilistic simulation

Hu Zhao, Anil Yildiz, Nazanin Bagherinejad
Chair of Methods for Model-based Development in Computational Engineering
RWTH Aachen University

Software Highlights

Robust GP emulator for your simulation
Save precious compute time!

	training	evaluation	2500 evals
simulator	-	32 min	56 days
emulator	4.5 days	0.05 sec	2 min

- Gaussian Process Emulation
- Bayesian Calibration
- Global Sensitivity Analysis
- Efficient Sampling
- Active Learning

Software in Action

Quantify uncertainty. Identify key drivers.
Calibrate with data.

Open Source and Pythonic

Want to build unified, robust and
sustainable UQ workflows? [1]

PSimPy
